"FOR GOD AND COUNTRY, we associate ourselves together for the following purposes: To uphold and defend the Constitution of the United States of America; to maintain law and order; to foster and perpetuate a one hundred per cent Americanism; to preserve the memories and incidents of our association in the great war; to inculcate a sense of individual obligation to the community, state and nation; to combat the autocracy of both the classes and the masses; to make right the master of might; to promote peace and good will on earth; to safeguard and transmit to posterity the principles of justice, freedom and democracy; to consecrate and sanctify our comradeship by our devotion to mutual helpfulness."

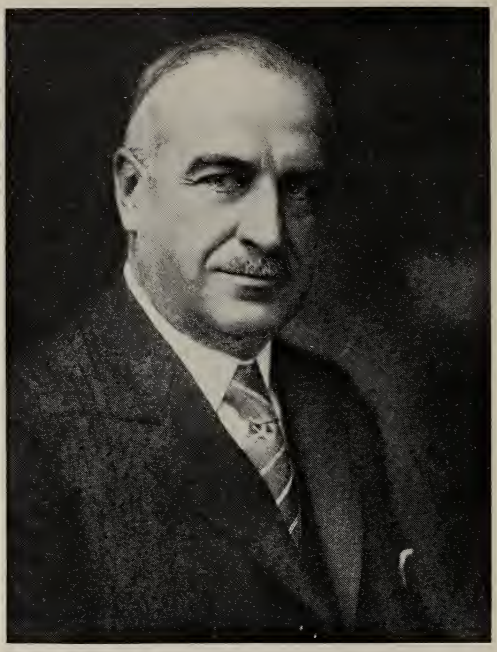
GUEST OF HONOR

TWELFTH ANNUAL CONVENTION

THE AMERICAN LEGION



FRANK G. ALLEN

*Governor*

*Commonwealth of Massachusetts*

*Greetings!* It is more than a privilege, it is an honor which comes to me as Governor of Massachusetts, to extend to The American Legion the cordial greetings of our Commonwealth and to proffer the assurance of a hearty welcome.

This year as we celebrate the Three Hundredth Anniversary of the beginning of our American democracy, it seems particularly appropriate that Boston should have been chosen as the meeting place of those who so valiantly defended those principles upon which our Government was founded. The atmosphere of Boston is rich in historic interest. Our traditions are permeated with the spirit of patriotism and speak eloquently of that struggle for liberty from which grew these United States.

May I express the hope that this coming convention of the American Legion may strengthen the bonds and deepen the loyalties that make your orgauization the type of all that is highest and best in American citizenship.

JAMES M. CURLEY

*Mayor*

*City of Boston*

*Greetings!* It is a great honor and a privilege for me, as Mayor of Boston, to greet The American Legion, which assembles in convention here in the Tercentenary of the birth of free constitutional government in America.

In Boston were sown the seeds of that protest against the infringement of the rights of man, which resulted in American independence, and thundered to Europe, and through Europe to the rest of the world, that oppression was no more, that might was no longer to be considered right, and that liberty was to be the possession of all men wherever they lived on the face of "God's footstool," as the psalmist calls the earth. To Boston, which, because of its interest in learning, in the arts and in the sciences, has been truly called a very university in its streets, we invite The American Legion, which has done so much for democracy throughout the world, to visit us, to gaze upon the historic shrines which are and have been an inspiration to all who have visited them, to go out into every country, preach the doctrine of freedom, and teach mankind that the federation of the world and the parliament of man is no idle dream, but is fast becoming a reality.

May your stay with us exceed your fondest expectations, and when you leave us may you look back upon your visit as one of your most pleasant memories.

THE Finance Committee of the Convention Corporation wish to express their grateful thanks to the numerous individuals, firms, industries, trades and other business interests which have contributed to the Convention Fund.
